

### **School Links**

We are very happy with the response from the teachers at our feeder schools, it's the best we have ever had with many of the teachers coming to visit the children in a familiar environment. They also have the opportunity to have a chat with the key workers. We have also planned a few visits to the primary schools. What a success.

### **Eco Committee Meeting**

As explained in previous newsletters we are now working towards becoming an Eco Nursery. We have formed a committee of children, parents and staff.

#### **OUR COMMITTEE**

- Lucy McCormack
- Lucas Frew
- Rachel Stewart
- Jonny Doody
- Aiden Fitzsimmons
- Dr Stuart Glen
- Suzanne Tierney
- Jackie Davis

Everyone will be involved in the becoming a successful Eco Nursery but the committee members have the responsibility of ensuring all tasks are carried out and any new information is passed on to the whole nursery.

### **Sun Awareness**

As you are aware we are outdoors as often as possible and the children's safety is paramount therefore we would appreciate if you could provide a suitable bottle of sunscreen (SPF25+). There is no need to supply a sun hat as we have a sunhat for everyone at nursery.

### **Parents Evenings**

The anti pre school children's parents evenings will be held on the following dates.

- Linsey - Mon 1st June
- Christina - Tue 2nd June

Time sheets are situated on the parent's notice board.

### **Policy**

We have attached a copy of our parents as partners policy. We welcome any suggestions or comments.

### **Planned Parental Involvement**

- In the next few weeks Dr Glen will come and work with the children in further developing the recently created secret garden to make it a place of exploration and discovery as well as a place to go for a quiet break when required.
- Mr Timmons a physics teacher volunteered his time to come and explore some of the science outcomes with the children in the nursery. He asked staff about suitable experiences and after consulting with the children they drew up a list which Mr Timmons hopes to explore through the summer.
