

As part of Safer Scotlands road safety programme the Scottish Government have produced a framework which the children have been following in nursery. 'The adventures of Ziggy' chronicles an alien who has come to visit our planet, in this series of 6 books the children are shown safe ways to cross the road as well as how to sit safely in the car. As part of book 3 "Ziggy Visits Granny " the children have been demonstrating how to travel safely in the car, why they must sit in their own car seat and why they must be clicked in. Further information on Ziggy can be found at www.gosafewithziggy.com.

In relation to this topic parents can read about car safety on the website www.protectchild.co.uk this site gives information on car seat checks as well as guidelines on car seat sizes and weight for each child. If any parent has any questions or ideas they would like to share on road safety please speak to Maryanne.
