

This month we have been learning about Harvest and how this festival is important in other people's lives, which is why we have designed a poster asking if you could help us to make others smile. (Poster displayed on Kitchen Window)

We have been discussing ways to help other people smile and agreed it is important to be kind and share, which is why we will be collecting food to make a food hamper to give to those less fortunate than ourselves.

From Monday we would be grateful for any tins, jars, bottles and packets of non-perishable food you could spare for our Hamper.

As always we would like to take this opportunity to thank you for your continued support as we strive to become Responsible Citizens and make others smile!!!
