

Safety

The children are currently learning about the ways we keep ourselves and others safe both indoors and outdoors. We would greatly appreciate it if parents who work or know someone who works in the Fire Service, Health, Police or any industry which would develop the children's knowledge of safety, could attend the nursery to speak to the children about their jobs and its importance.

If you are able to participate please speak to a member of staff who will advise you on where to record your interest.
