

## **Gate**

It has been brought to our attention that the gate is still being left open. This issue has been in several newsletters since it was first pointed out in October 2012 yet this is still happening. I cannot stress enough that this is unacceptable, please be aware that staff cannot stand next to the gate and ensure it is locked and that we put trust in our parents to carry this security procedure out when entering and leaving. We appreciate all the parents who are vigilant in locking the gate and in pointing out those who do not and thank them for their co-operation.
