

# Improvement Plan

Little Treasures Nursery endorses Improvement Planning procedures in accordance with guidelines laid out by North Lanarkshire Council and our Service Level Agreement with them.

Improvement Planning enables staff as a team to continuously improve the quality of our service. Staff identify strengths and areas of development by auditing our performance through a variety of self-evaluation systems, consulting parents and children and also by using Child at the Centre 2, and the National Care Standards.

Priority is given to areas where attention is needed and a plan of action drawn up with specific areas identified.

All staff work as a team to oversee the construction, implementation and evaluation of the specific targets within our Improvement Plan.

National Care Standards- Improving the service, Standard 13
